Hi Bob:

I checked the file and did locate a report that documented the excavation activities. Unfortunately, it doesn't go into much detail. I've attached the pertinent sections.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: question on old file documents for the Tower site

Hi Chris,

Would you happen to have any information in your file related to the excavation done at Tower Standard in the 1990's? I'm interested to see whether there might be useful information in the document or field notes about how deep the excavation was and what observations may have been made about the size and depth, pit wall stability, dewatering etc.

Thank you for the help.

Bob
